1 Device Description

1.1 System Components

1.1.1 Hardware

- **Imaging Unit:** Handheld camera with dual LED arrays
- **Display:** 720×720 touchscreen interface
- **Processing Unit:** Raspberry Pi 5 CM
- **Power:** Rechargeable lithium-ion battery

1.1.2 Software

- Patient management system
- Image capture and processing
- Cloud synchronization
- AI-assisted analysis (optional)

1.2 Technical Overview

(Content to be added)
